Vocabulary from Classical Roots Feb 28 2023 Vocabulary from Classical Roots is a thematically organized vocabulary program based on Greek and Latin roots. Each of the 16 lessons features 2 3 roots and 8 15 words derived from these roots. Words are presented with dictionary-style definitions, and all words are used in example sentences. Lists of Familiar Words and Challenge Words are provided for each root to help all students activate prior knowledge and keep advanced students on task. Exercises include synonym/antonym, fill in the blank, identification of incorrect usage, and analogies. Review activities including writing extensions, discussion questions, and other exercises are provided after every two lessons. The themes presented in Book E include: Here and There, Government, Up and Down, Business, Light and Dark, Open and Shut, Military Matters, Good and Bad, and The Law. Some of the words presented in this book include: cede, exhort, cartel, aver, malign, induce, juxtapose, censure, echelon, peripatetic, and succumb. Grade 11."

Come Follow Me (Second International Edition) Apr 25 2020 Please order all our books at a lower price from <https://word.org.uk/> with worldwide distribution. For more information please order from <https://come-follow-me.org/> Muslim people worldwide are turning to Jesus. How can they grow a strong identity as disciples of Christ and members of his community while still caring for their Muslim families? The 'Come Follow Me' discipleship course was written specifically for new believers from a Muslim background as they start to follow Jesus the Messiah. It comes in two parts, the study guide, which is needed by learners and Advisors, and the Advisor's guide, which is available to download for free from our website come-follow-me.org, or can be ordered from the Come Follow Me online shop. Come Follow Me is based on an inductive study of 1 Peter, and participants grow through a powerful combination of self-study, regular discussion with a mentor (or in a group) and practical learning tasks. It aims for deep-level discipleship, which affects issues of belonging (e.g. to old and new communities), worldview (including fatalism, revenge, good deeds etc) and behaviour (e.g. marriage relationships, conflict resolution).

Blue Pelican Java Jan 27 2023 "Blue Pelican Java" is a somewhat unusual high school computer science textbook. Most computer science texts will begin with a section on the history of computers followed with a flurry of definitions that are just "so many words" to the average student. The approach here is to first give the student some experience upon which to hang the definitions that come later. The usual practice of introducing classes and objects is deferred until the student has a firm grasp of the fundamentals (loops, decision structures, etc). Thus, the beginning student is not overwhelmed by the simultaneous introduction of OOPs and the fundamentals. The book includes plenty of exercises (many in "contest" form), programming projects, and a huge appendix.
