Voices of Inquiry in Teacher Education Jan 03 2021 This book is an attempt to show that preservice teacher knowledge is substantive and should be part of the wider database of knowledge about teaching and learning in the field of teacher education. From the perspectives of five prospective teacher interns and a teacher educator, this volume brings the experiences of students conducting research during preservice teacher education to life. Charged to conduct a semester long study in the school, the intern-authors studied classroom scenes and their own work, and wrote case studies depicting their experiences. Their pieces -- in their entirety -- compose the central chapters of the book and serve as examples of preservice teacher research. The surrounding chapters examine the interns' experiences of conducting research during their preservice internship year primarily from the perspective of a teacher educator who studied them and the scene throughout the experience. The teacher educator examines the interns' approaches to research and the processes they employed to conduct and complete their studies, the interns' professional growth as a result of their participation in the study, and the impact the project had on the program. This book fills the gaps that exist in the present literature on the use of teacher research during preservice by including the inquiry works of preservice teachers as examples of legitimate, important preliminary research in their own rights, and by addressing the complex issues of conducting this type of study during preservice from multiple perspectives, not just that of the university researcher. While some texts include the perspectives of students and even include portions of students' own work, this text takes the step of co-authorship, sharing the academic discourse with intern teachers who have produced experience and knowledge that are informative for the field of education as a whole and specifically for teacher education. The text attempts to combine many voices into one thorough, narrative approach, ultimately urging the reader to consider the possibilities of teacher research for advancing knowledge in the field and for enhancing the professional development of the participants.

Multilingual Education Yearbook 2019 Nov 13 2021 This book offers essential insights into the challenges and complexities surrounding the medium of instruction (MOI), its impact on all languages and stakeholders in multilingual contexts, educational processes, developments and outcomes. MOI has been a prominent topic in recent debates on the role of languages in education in multilingual contexts, partly because prioritizing one language over others as the medium of instruction has a profound impact on all languages and stakeholders in multilingual contexts. These include, to name but a few, (language) teachers, teacher educators, students, and policymakers, as well as industries and enterprises built around the needs and expectations of these stakeholders. This book presents high-quality empirical research on education in multilingual societies. It

highlights research findings that, in addition to providing descriptions of language learning, development and use in language contact and multilingual contexts, will help shape future language education policy and practices in multilingual societies.

Creative Curriculum Nov 25 2022 The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

Deadline Oct 20 2019 Ben Wolf has big things planned for his senior year. Had big things planned. Now what he has is some very bad news and only one year left to make his mark on the world. How can a pint-sized, smart-ass seventeen-year-old do anything significant in the nowhere-ville of Trout, Idaho? First, Ben makes sure that no one else knows what is going on—not his superstar quarterback brother, Cody, not his parents, not his coach, no one. Next, he decides to become the best 127-pound football player Trout High has ever seen; to give his close-minded civics teacher a daily migraine; and to help the local drunk clean up his act. And then there's Dallas Suzuki. Amazingly perfect, fascinating Dallas Suzuki, who may or may not give Ben the time of day. Really, she's first on the list. Living with a secret isn't easy, though, and Ben's resolve begins to crumble . . . especially when he realizes that he isn't the only person in Trout with secrets.

Educational Media and Technology Yearbook Oct 24 2022 This is Volume 42 of the Educational Media and Technology Yearbook. For the past 40 years, our Yearbook has contributed to the field of Educational Technology in presenting contemporary topics, ideas, and developments regarding diverse technology tools for educational purposes. Our Yearbook has inspired researchers, practitioners, and teachers to consider how to develop technological designs and develop curricula and instruction integrating technology to enhance student learning, teach diverse populations across levels with effective technology integration, and apply technology in interactive ways to motivate

students to engage in course content. In addition, Volume 42 features the Virtual Reality (VR) and Augmented Reality (AR) research and educational use cases, organized and coordinated by Vivienne and David. This section provides evidence that the affordances of AR, VR, and mixed reality, defined as an immersive multi-platform experience reality (XR), have begun to make indelible changes in teaching and learning in the United States. XR's recent developments stimulated the editors to propose a special edition to mark the interoperability of immersive technology to push the boundaries of human curiosity, creativity, and problem solving. After years of incremental development, XR has reached a critical level of investment, infrastructure, and emerging production. The chapters included in this section illustrate how XR can push user inquiry, engagement, learning, and interactivity to new levels within physical and digital contexts.

Our Favorite Day of the Year Mar 25 2020 A heartwarming picture book following a group of boys from different backgrounds throughout the school year as they become the best of friends. Musa's feeling nervous about his first day of school. He's not used to being away from home and he doesn't know any of the other kids in his class. And when he meets classmates Moisés, Mo, and Kevin, Musa isn't sure they'll have much in common. But over the course of the year, the four boys learn more about each other, the holidays they celebrate, their favorite foods, and what they like about school. The more they share with each other, the closer they become, until Musa can't imagine any better friends. In this charming story of friendship and celebrating differences, young readers can discover how entering a new friendship with an open mind and sharing parts of yourself brings people together. And the calendar of holidays at the end of the book will delight children as they identify special events they can celebrate with friends throughout the year.

Media Education and the (re)production of Culture Apr 25 2020 This book analyzes and critiques media education in the university and offers tools for developing a more critical direction. Media education should not be regarded as a job-track, but as an area of inquiry that integrates theory and practice. Media literacy and especially an awareness of the myths and misconceptions that mass media perpetrate should be part of the general education for all college students. Sholle and Denski present the premises of critical pedagogical theory as a framework for re-orienting media studies programs and the discussion of the role of the media in forming important social self-images.

High School Journalism May 19 2022 High school journalists share the same objectives as professional reporters—finding the story, writing the story, and packaging the story so that it appeals to an audience. Understanding how to best accomplish these objectives is key to the student on the newspaper, yearbook or Web site staff, but the fundamental art of storytelling and story presentation are not always at the center of high school journalism classes. Student journalists must first understand that storytelling, at its most basic level, is about people, and that understanding the audience is essential in deciding how to present the story. This handbook for high school journalists and teachers offers practical tips for all elements of school journalism. The author covers the essential components that students must understand: information gathering, writing, standard and alternative coverage and packaging. Students will find valuable information about identifying news, interviewing, research, narrative writing style, editing, visual presentation and layout. The book also covers the legal rights of student journalists, objective vs. opinion writing, staff planning and organization and Web-based journalism. Each chapter includes study guides for practical applications of the concepts discussed. Instructors considering this book for use in a course may request an examination copy [here](#).

Peeled Aug 10 2021 Something's rotten in the heart of apple country! Hildy Biddle dreams of being a journalist. A reporter for her high school newspaper, The Core, she's just waiting for a chance to prove herself. Not content to just cover school issues, Hildy's drawn to the town's big story—the haunted old Ludlow house. On the surface, Banesville, USA, seems like such a happy place, but lately, eerie happenings and ghostly sightings are making Hildy take a deeper look. Her efforts to find out who is really haunting Banesville isn't making her popular, and she starts wondering if she's cut out to be a journalist after all. But she refuses to give up, because, hopefully, the truth will set a few ghosts free. *Peeled* is classic Joan Bauer, featuring a strong heroine, and filled with her trademark witty dialogue, and problems and people worth standing up to.
