Working with Students with Disabilities Oct 20 2019 Like no other book available, Working with Students with Disabilities: A Guide for School Counselors provides comprehensive coverage of school counselors' roles in special education and working with students with disabilities and connects that coverage to both the ASCA national model and CACREP standards. In Working with Students with Disabilities, school counselors will find thoughtful analyses of the legal and regulatory basis for many of the practices in special education, including an overview of pertinent laws including the Individuals with Disabilities Education Improvement Act and Section 504 of the Rehabilitation Act. They'll gain an in-depth understanding of the leadership role that school counselors should play in supporting students, teachers, and families, and they'll also come away with an understanding of the common challenges—like bullying, cyberbullying, and successful transitioning from high school to adult life— to which students with disabilities may be more vulnerable, as well as less common challenges such as behavioral difficulties, autism spectrum disorders, and many more.

Journalist 2 Nov 13 2021

Soviet Historians and Perestroika: The First Phase Jan 15 2022 The Soviet historical profession is in ferment. For decades it was relegated to the task of obfuscating the past, gilding the status quo and papering over the "blank spots" in Soviet history - events that defied even the most brazen attempts at falsification. Today it is engaged in an often painful process of self-examination. Initially rather timid, the internal discussion was soon propelled by external events - the scuttling of history textbooks, official disclosures of formerly "classified" facts and the explosion of candour in the depictions of the past in memoirs, journalistic writing and fiction. This volume gives voice to the lead actors in the "first phase" of this process - the senior historians, their journalistic "challengers" and those charged with responsibility for the institutions of research, training and publication in the field of history.

Responsible Grace Sep 23 2022 Of special focus in this reflective overview of Wesley's theological convictions is highlighting the practical-theological dynamics of Wesley's work and suggesting possible implications for contemporary attempts to recover theology as a practical discipline. Another distinctive focus of this work is a systematic consideration of the integration of theological emphases traditionally divergent in Eastern and Western Christianity. The author also closely examines the consistency of Wesley's thought throughout his career.

The Daily Stoic Jul 21 2022 From the team that brought you The Obstacle Is the Way and Ego Is the Enemy, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Journal with Purpose Dec 26 2022 Journal with Purpose is the ultimate reference for journaling, packed with over 1000 motifs that you can use to decorate and enhance your bullet or dot journal pages. Copy or trace direct from the page, or follow one of the quick exercises to improve your skills. Featuring all the journal elements you could wish for – banners, arrows, dividers, scrolls, icons, borders and alphabets – this amazing value book will be a constant source of inspiration for journaling and an 'instant fix' for people who find the more artistic side of journaling a challenge.

Key Concepts in Measurement May 27 2020 Measurement refers generally to the process of assigning a numeric value to, or ordering characteristics or traits of, entities under study. Measurement is necessary for building and testing theory, specifying problems, and defining goals. It is arguably one of the most important and difficult tasks in social work research. Social work researchers who are not expert in developing, selecting, and using measures will not be able to contribute maximally to the social work knowledge base. Such knowledge and skills related to measurement ultimately determines the extent to which social work research can effectively inform social policy and social work interventions. This book is to serve as a guide for developing, selecting, and using measures in social work research. In particular, this book provides a detailed review of contemporary validity theory; an update on the major issues of reliability; common errors in measurement of latent variables; and suggestions on measurement of social networks and collectives. An important theme of this book is the focus on the creative potential of measurement - that is, helping social work researchers think about the wide variety of ways that social work concepts can be measured. Reflecting on these differences raises questions about underlying assumptions that in turn inspires creative theoretical insights. Rather than seeing measurement as simply a task to be completed in the research process, we will encourage the reader to think creatively about measurement and theory. This book also addresses the interdependency of measurement and theory construction. In other words, this book covers how measurement and theory are connected in two different ways. First, every measure has its own working theory that relates the measure to the concept being

measured. Second, theory construction is dependent on measurement. What we learn using a given measure could be different if a concept was measured in a different way.

Engaging and Working with African American Fathers Dec 02 2020 Engaging and Working with African American Fathers: Strategies and Lessons Learned challenges traditional and historic practices and policies that have systematically excluded fathers and contributed to social and health disparities among this population. With chapters written primarily by African American women – drawing on years of research, interviews, and practical experience with this demographic – each section explores current evidence on engagement approaches, descriptions of agencies/programs addressing specific issues fathers face, and case studies documenting typical clients and approaches to addressing their diverse needs. Offering an expansive overview of issues affecting African American fathers, the book explores such important topics as public, child and mental health, education, parenting, employment, and public initiatives among others. Engaging and Working with African American Fathers is a key resource for social work, public health, education students, researchers, practitioners, policymakers, and members of communities who are challenged by meeting the diverse needs of African American fathers.

A Guide to Professional Doctorates in Business and Management Jun 08 2021 *Shortlisted in the Management and Leadership Textbook Category at CMI Management Book of the Year Awards 2017* A Guide to Professional Doctorates in Business and Management has been written by a team of experts with experience of the challenges faced in both studying for and supervising professional doctorates in business and management. Inside they address the key issues faced, in particular how these courses differ from a traditional PhD, and the different skills and approach needed for success. Chapters explore the nature and importance of PDs as leading change in the professional world of practice, and how they need to differ from traditional forms of doctorate such as PhDs. The guide also offers practical guidance on researching in this particular mode, and through writing and publishing a thesis, making a valuable contribution to professional knowledge. -- Dr Catherine Groves

Social Work with Children and Their Families Oct 12 2021 An extensively revised version of the first edition, this text focuses on the practical foundational knowledge required to practice social work effectively in the complex and fast-changing world of services to children and their families. The core organizing framework consists of eight pragmatic perspectives: combating adultcentrism, family-centered practice, the strengths perspective, respect for diversity and difference, the least restrictive alternative, ecological perspective, organization and financing, and achieving outcomes. Unlike most texts that focus either on direct practice or on policy, Petr's revised volume integrates current policy-including recent reform efforts-with "best practices." The student thus gains a deep appreciation for how direct social work practice is linked to, and even guided by, contemporary policy initiatives and the values that underscore those initiatives. Two new chapters are devoted specifically to the fields of child welfare and children's mental health, providing an overview of the laws, policies, practices, and terminology pertaining to each setting. The next eight chapters focus on each pragmatic perspective and its relevance to child welfare and children's mental health. The in-depth case studies that comprise the concluding two chapters illustrate how typical client situations can be successfully addressed within the context of the pragmatic perspectives. Packed with case studies, specific practice instruction, chapter summaries, and suggested learning activities, this book prepares students and practitioners to think and act professionally in ways that are consistent with current laws, values, policies, and reform efforts in the field.

Doing Action Research in English Language Teaching Mar 17 2022 This hands-on, practical guide for ESL/EFL teachers and teacher educators outlines, for those who are new to doing action research, what it is and how it works. Straightforward and reader friendly, it introduces the concepts and offers a step-by-step guide to going through an action research process, including illustrations drawn widely from international contexts. Specifically, the text addresses: action research and how it differs from other forms of research the steps involved in developing an action research project ways of developing a research focus methods of data collection approaches to data analysis making sense of action research for further classroom action. Each chapter includes a variety of pedagogical activities: Pre-Reading questions ask readers to consider what they already know about the topic Reflection Points invite readers to think about/discuss what they have read action points ask readers to carry out action-research tasks based on what they have read Classroom Voices illustrate aspects of action research from teachers internationally Summary Points provide a synopsis of the main points in the chapter Bringing the 'how-to' and the 'what' together, Doing Action Research in English Language Teaching is the perfect text for BATESOL and MATESOL courses in which action research is the focus or a required component.

Flexible Work Mar 25 2020 Flexible Work: Designing Our Healthier Future Lives examines flexible working through the lens of social science, in particular using psychological perspective to address not only what forms of flexible working there are and how they are evolving but also their prospect in the future of work. Bringing together views from thought-leaders and underpinned by research evidence, this book addresses two of the most fundamental business challenges for large and medium organisations – mental health and productivity – calling for the bridging of science and policy to design flexible working for our future healthier lives. Growing from these foundations, this book explains the latest landscape in flexible working, looking at employee psychological health and productivity, including showing up for work sick. Perspectives are provided from around the world on leadership, line management, 'over attachment' with technology, commuting, skill-based inequality and control over working time. Readers are offered insights into the relevance of flexible working for a diverse workforce – invisible disabilities, disabilities, older workers and blended families. Throughout, the book offers suggestions for shaping future policy, practice and research. Each chapter concludes with recommendations, making this essential reading for students, academics, human resource practitioners, policy-influencers, policymakers and professionals interested in flexible work.

A Guide to Library Research in Music Dec 22 2019 A Guide to Library Research in Music introduces the process and techniques for researching and writing about music. This informative textbook provides concrete examples of different types of writing, offering a thorough introduction to music literature. It clearly describes various information-searching techniques and library-based organizational systems and introduces the array of music resources available. Each chapter concludes with learning exercises to aid the students' concept application and skill development. Appendixes provide short cuts to specific topics in library organizational systems, including Library of Congress Subject Headings and Classification. The concluding bibliography provides a quick overview of music literature and resources, emphasizing electronic and print publications since 2000, but including standard references that all music researchers should know.

Professional Social Work Education and Health Care May 07 2021 Professional Social Work Education and Health Care responds to critical concerns about the educational preparation of social workers within the rapidly changing health care environment. Contributors address issues and questions of importance to educators who are contending with the multiple challenges of rapidly changing institutions, fiscal constraints, and service to populations with complex social health care needs. This coverage provides you with important visions of the future education of leaders in health care social work. The editors of Professional Social Work Education and Health Care present information that looks to the future in order to open the floor for communication among the leaders in health care social work settings. Chapters explain the context of social work practice, exploe current social work practice issues, and look into continuing education and fieldwork. In doing so, they give you valuable information about imprtant issues such as: changes in social work department structure and function in challenging economic times collaborative efforts and reciprocal relationships in education and training emergence of networks that will join forces with hospitals preparation for short-term, solution-based social work the remaining need for traditional, long-term social work frameworks and values the shift in ideology to viewing clients as consumers rather than patients modification of curriculum to focus on parenting, health education, adolescent pregnancy prevention, and wellness programs emergence of a model for post-master's education field work in community-based health care placements versus inpatient hospital settings This book's model for making education and practice responsive to each other and for responding to the needs for collaboration makes it a valuable resource for social work educators, practitioners, and clinicians in health and mental health; advanced gerontologists in academic and practice agencies; and teachers of policy and research in health concentrations in schools of social work. Professional Social Work Education and Health Care is an excellent ancillary text for advanced undergraduate and graduate courses in social work practice in health and mental health and is a strong addition to reading lists for classes on social work with the aged, social work research in health care, and field work seminars in health and mental health.

Journal of Education and School World Nov 20 2019

Distance Learning Dec 14 2021 Distance Learning is for leaders, practitioners, and decision makers in the fields of distance learning, e-learning, telecommunications, and related areas. It is a professional journal with applicable information for those involved with providing instruction to all kinds of learners, of all ages, using telecommunications technologies of all types. Stories are written by practitioners for practitioners with the intent of providing usable information and ideas. Articles are accepted from authors--new and experienced--with interesting and important information about the effective practice of distance teaching and learning. Distance Learning is published quarterly. Each issue includes eight to ten articles and three to four columns, including the highly regarded "And Finally..." column covering recent important issues in the field and written by Distance Learning editor, Michael Simonson. Articles are written by practitioners from various countries and locations, nationally and internationally.
